Team Improvement Workshop

Improve your team's "way of doing business" together, increase your team's output and enhance interpersonal dynamics.

This one day, highly interactive workshop will help new teams (and teams that need a fresh start) improve their results and increase cooperation between team members.

We have utilized our 15 plus years of team building and team leading experience to design this workshop. The goals are to:

- Help you recognize the stages of team development, the benefits of each stage, and the path to advance to the next stage.
- Learn how you create clear and agreed upon team goals and clarify individual roles.
- Recognize the difference between the team's task, content, and process. Understand the roadblocks in each area and the opportunities for success in each area.
- Know how you can get work done together through decision making, problem solving, time management, and conflict management techniques.
- Learn to use non-judgmental language to help improve interpersonal relationships and enhance understanding.

Investment:

Team building for up to 16 people includes one full day of on-site consultation at a cost of \$2,500 plus travel expenses. Additional consulting if requested is \$150 per hour for telecoaching and \$2,500 per day on-site.

We also provide facilitation for meetings.
